RE: Request for Waiver and Reduction of  
Regulatory Fees for KCSG(TV)  
Fee Control No. [[9909238835143002 &

Fee Paid \$3,400.00

Dear Mr. Satten:

This is in response to the petition for permanent reduction of regulatory fee, filed on September 22, 1999, on behalf of Bonneville Holding Company (BHC), licensee of KCSG(TV), Cedar City, Utah (the "1999 Petition"). In your petition you note that "[b]ased on conversations with FCC staff," BHC deferred payment of regulatory fees for Fiscal Year (FY) 1999 pending resolution of your petition for permanent reduction of regulatory fees dated November 12, 1998 (the "1998 Petition").

In response to the 1998 Petition, on December 17, 1999, the Commission granted the petition's request to classify KCSG as a remaining market station for purposes of regulatory fee payment as to FY 1999 and subsequent years, conditioned upon prompt payment of the regulatory fee and penalty amount due for Fiscal Year 1998. BHC met that condition and at the same time paid \$3,400.00, the FY 1999 regulatory fee for a remaining market station. That payment was correct.

As noted in our letter of December 17, 1999, BHC is under a continuing obligation to report to the Commission any changes that could affect KCSG's qualification for regulatory fee reduction, such as change in network affiliation, service area, or population coverage. If you have any questions concerning this letter, please call the Credit & Debt Management Center at 418-1995.

for Mark Reger

To: The Managing Director

**PETITION FOR PERMANENT REDUCTION OF REGULATORY FEE**

This *Petition for Permanent Reduction of Regulatory Fee* is respectfully filed by counsel on behalf of Station KCSG(TV), Cedar City, Utah. The purpose of this petition is to request permanent classification of television station KCSG (formerly KXIV and KSGL-TV), Channel 4, at Cedar City, Utah, as a "remaining market" station for purposes of its annual regulatory fee assessment.

Station KCSG is now licensed to Bonneville Holding Company. The station had previously been dark pursuant to Commission authority and returned to the air on October 12, 1998. It is understood that the station's prior licensee, Seagull Communications Corp., regularly paid annual regulatory fees for KCSG as a "remaining market" station. Because there was no written documentation from the Managing Director's office to verify KCSG's classification as a remaining market station for purposes of its annual regulatory fee filing, we were advised by FCC staff to submit a petition for a permanent reduction in the regulatory fee for the station and its new licensee. Such a petition was filed with the Commission on November 12, 1998 and is currently pending. At the direction of FCC staff, we hereby submit this reduction request for Fiscal Year (FY) 1999 regulatory fees.

Station KCSG broadcasts in a small city in the southwest part of Utah with a census population of approximately 13,500 people. The *1999 TV Factbook* lists estimated total TV Households within KCSG's coverage area as 21,950; according to the *TV Factbook*, the station's average weekly circulation for total TV households in 1998 was 1,304 and average daily circulation in 1998 was 187. These numbers are significantly lower than the average number of television households served by a television station located in a top 50 (or top 100) market.

According to the *TV Factbook*, Cedar City is classified as part of the Salt Lake City, Utah Designated Market Area (DMA), which is presently ranked 36 with over 700,000 TV households. In keeping with the Commission's *Regulatory Fee Order*, this classification would subject KCSG to assessment of a \$23,475 regulatory fee as a VHF commercial station in a top 50 market. This is an inappropriate classification because it fails to recognize that KCSG's predicted Grade B contour does not penetrate the Salt Lake City market or any other major metropolitan area. Cedar City is located approximately 250 miles from Salt Lake City. Thus, classification and treatment of KCSG as part of a "remaining market" rather than the Salt Lake City market for fee filing purposes is more equitable and more appropriate.

Based on conversations with FCC staff, payment of the 1999 regulatory fee for Station KCSG is being deferred pending resolution of this (and the previously filed) petition for reduction in regulatory fee. Based on the above rationale, it is believed that the \$3,400 fee for a VHF remaining market station would be the appropriate fee amount. WHEREFORE, in light of the foregoing, it is respectfully requested that the petition to classify Station KCSG as a "remaining market" station for purposes of its FY 1999 regulatory fee assessment be granted. It is further requested that, absent significant changes in population or coverage area, KCSG continue to be classified as a remaining market station in succeeding years for purposes of regulatory fee

assessment and that written documentation of this classification be issued by the Managing Director's office for inclusion with future regulatory fee filings.

Respectfully submitted.
